## The Saddles

In the standard hand-

Half rough out Wade.  
\$4800

Half rough out Packer  
\$5400

Partial tooled Willow  
Creek Association.  
\$5600

Floral Tooled Wade  
\$5500

In the standard handmade line we offer six styles from plain, or rough out, to three quarter tooled with a 'leg shadow' on the seat jockeys and fenders. Each of these finishes is available on either a 9" Wade or 14" Swell Fork tree. Seats are available in 15", 15 1/2", and 16" standard lengths. Standard cantles are 12 1/2" wide by 4 1/2" high, with 1 1/2" dish. The trees are made to exacting specifications, usually in a 4x8 gullet with a 90 degree front angle. 4x8 is the gullet width measured 4" wide at the hand hole with a gullet height of 8". This configuration has been found to fit a wide range of horses. The saddles described here are rigged with a 7/8 flat plate or in skirt rigging as shown. Full carved and other custom configurations are available on any tree. Call for a quote - we can make it for you!
